Retail is competitive - every advantage helps. Manufacturers use Shopatron to deliver extra sales as well as powerful information for smarter buying to retailers. Retailers use Shopatron to grow.

With Shopatron, manufacturers open and operate online stores at their websites. Shopatron online stores actually generate business for retailers *ZdVRU* of competing with them. Participating retailers ship or deliver orders, turning inventory faster and acquiring new customers.

Retailers use Shopatron to stay on top of product trends and see what's selling. This leads to smarter buying which means faster inventory turns and increased cash flow.

Shopatron increases manufacturer and retailer sales while offering consumers convenience, fast delivery, and knowledgeable service. Retailers large and small participate.

If you can pack and ship a box, manufacturers will send you extra sales. Signing up with Shopatron is free; you only pay a small fee when you make a sale.

Make additional sales. Stay on top of trends. Acquire new customers. **Grow.**

Make More Sales

- With Shopatron, manufacturers support retailers instead of competing with them.
- Shopatron can help retailers clear older product off shelves faster.
- Shopatron orders give participating retailers higher visibility to local consumers.
